TROPICAL CYCLONE BULLETIN NR. 22
Tropical Depression ADA (NOKAEN)

Issued at 5:00 AM, 19 January 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

"ADA" WEAKENED INTO A TROPICAL DEPRESSION.

Location of Center (4:00 AM)

The center of Tropical Depression ADA was estimated based on all available data at **380 km East of Casiguran, Aurora (16.3°N, 125.7°E).**

Intensity

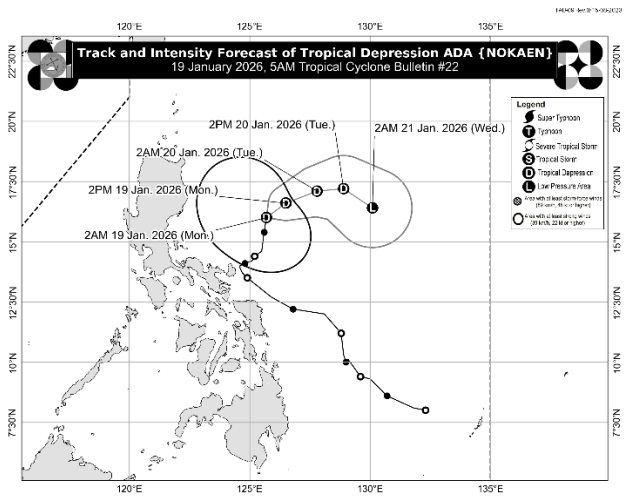
Maximum sustained winds of **55 km/h** near the center, gustiness of up to **70 km/h**, and central pressure of **1000 hPa**

Present Movement

North northeastward at 10 km/h

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **340 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)

OTHER HAZARDS AFFECTING LAND AREAS

Severe Winds

The Northeast Monsoon and the periphery of ADA will also bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Batanes, Cagayan, Isabela, Quirino, Ilocos Norte, Abra, Aurora, Polillo Islands, Camarines Norte, Camarines Sur, Catanduanes, and Northern Samar.
- **Tomorrow (20 January):** Batanes, Cagayan, Isabela, Ilocos Norte, Abra, Aurora, Quezon, Marinduque, Romblon, Camarines Norte, Camarines Sur, Catanduanes, Albay, Sorsogon, Northern Samar, and Surigao del Sur.
- **Wednesday (21 January):** Cagayan Valley, Ilocos Region, Abra, Aurora, Bulacan, CALABARZON, MIMAROPA, Bicol Region, Northern Samar, Eastern Samar, Negros Occidental, Negros Oriental, Cebu, Antique, Aklan, Iloilo, Guimaras, Dinagat Islands, Surigao del Sur, Agusan del Norte, and Davao Oriental.

HAZARDS AFFECTING COASTAL WATERS

There is no Gale Warning in effect at this time.

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Isabela; the eastern seaboard of mainland Cagayan.
- **Up to 3.5 m:** The eastern seaboards of Batanes and Babuyan Islands; the seaboard of northern Aurora; the northern and eastern seaboards of Polillo Islands; the northern seaboards of Camarines Sur, Camarines Norte, and Catanduanes.
- **Up to 3.0 m:** The seaboards of Ilocos Norte and Ilocos Sur; the western seaboard of Pangasinan; the eastern seaboard of Catanduanes; the remaining seaboards of Batanes and Babuyan Islands
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The remaining seaboard of Aurora; the seaboard of northern mainland Quezon; the western seaboard of Polillo Islands; the eastern seaboards of Albay, Sorsogon, and Eastern Samar; the northern and eastern seaboards of Northern Samar.
- **Up to 2.0 m:** The seaboard of Zambales; the remaining seaboard of Ilocos Region.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

ADA is forecast to move generally northeastward today before following a looping track over the sea east of Luzon. Continuous dry air entrainment from the northeast monsoon is expected to result in gradual weakening of ADA. It may be downgraded into a low pressure area by Wednesday (21 January), although earlier weakening remains possible.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
